

What a year we had! Although 2020 was full of changes and challenges, we have been celebrating the start of 2021 with great news and new faces. This year, InfraChain is focusing on the growth of its international ecosystem by expanding its reach to new horizons. 2021 also marks the launch of new blockchain projects, aiming to support European cross-industry efforts in order to foster the growth and the sustainability of the Blockchain ecosystem.

In this edition of the InfraChain newsletter, discover a brand new blockchain event in Luxembourg, a partnership that is advancing the competitive standard for Blockchain in Luxembourg, our newest community members and recruits, and special events!

The Luxembourg Blockchain Lab is organizing the launch edition of its Luxembourg Blockchain Week from 26<sup>th</sup> to 30<sup>th</sup> April - a uniquely designed one week program of concrete Blockchain applications in various sectors that are key to Luxembourg and Europe.

Don't miss an exclusive inauguration speech by The Prime Minister of Luxembourg Xavier Bettel and the finance stream's keynote presentation by the Minister of Finance Pierre Gramegna.

From the discovery of the GovTech Lab to insights into INATBA's working Group and the presentation of the blockchain initiative by the Ministry for Digitalisation of Luxembourg, we have been working hard to engage our members with exclusive 'members only' events since the beginning of the year. And there will be many more surprises to come!

**BLOCKCHAIN PARTNERSHIP (EBP)**  
Our Ambition: Building a Pan-European Blockchain Services Infrastructure (EBSI)  
• Working with 27 MS (EU & NO) in EBP  
• Supporting public services (all first)  
• Cooperation with private sector or applications  
• Strengthening EU leadership and autonomy in Blockchain  
**A Cross-border Public Services Infrastructure**  
• Public sector as trailblazer  
• Avoids fragmentation  
• Secure, interoperable, GDPR compliant, sustainable, based on (new) EIDAS and SSI
