Neofacto wins the first Infrachain Challenge

On 23rd and 24th September, Filedgr, Neofacto, PwC-Tokeny and Stampify participated in the first edition of Infrachain Challenge, the blockchain hackathon. Their task was to develop an innovative new application for the Public Sector Blockchain developed by the Ministry for Digitalisation.

After 30 hours of brainstorming, planning, coding and designing the four teams had 10 minutes each to convince the jury of their project.

TOKEN national launch event Luxembourg

Six months after the start of TOKEN, Infrachain organised the national launch event for Luxembourg on 8th July, 2020. Given the COVID-19 restrictions, the event was held as a webinar. This was the first such event of a series of national events to present the TOKEN project to a larger audience and to get further stakeholders involved. The webinar got wide attention from the Luxembourg ecosystem and beyond.

"CREATING A LONG-TERM COMPETITIVE ADVANTAGE FOR LUXEMBOURG"

The Infrachain interview series continues with Said Fihri, Partner at KPMG Luxembourg, who tells us more about the current blockchain challenges, its advantages and the next step for the trendy tech.

"INFRACHAIN ADDRESSES THE CRITICAL CHALLENGES IN THE BLOCKCHAIN AREA"

Dane Marciano, CEO of Affidaty, tells us more about his company and the reasons why it joined the Infrachain initiative. He notably focuses on the most efficient uses of the blockchain technology.

"BLOCKCHAIN CREATES VALUE THROUGH COLLABORATION"

Wim Stalmans (Founder of the Blockchain Academy®) met with our team to discuss his vision when it comes to the development of Blockchain applications.
